# OUR STORY

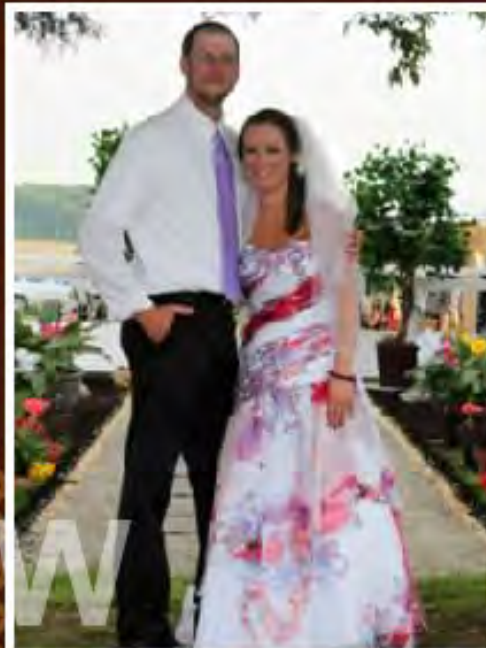

Thank you so much for taking the time to look at our profile and getting to know us. We are so happy that you are considering us to be the adoptive parents to your precious child.

We know that you are making a very difficult decision, we pray that the Lord gives you strength and wisdom as you make this decision.

Our names are Adam, Ashley, and Justin. As you will see we have a big extended family. We love our family with all of our hearts.

We are Not perfect and we make mistakes, but we wake up each day with a new chance. Adam & I expect our child to treat everyone with respect and kindness. We are proud of him so much. And we thank God everyday for the miracle that he is.

We love kids. We want more children. As a couple we can not have more children. But we have room in our hearts and our home for another child. We hope one day we will get this chance.

this  
is what  
**LIFE** is all  
about

Adam and I knew each other in high school, but we did not really get to know each other until a few years after high school at a mutual friend's birthday party. We went on a date the next Friday. We have been together ever since.

About a year after Adam and I got together my family suffered a tragic loss. This tragedy was an eye opening experience for me in many ways. Adam was so supportive and loving. I fell in love with him all over again. After that I knew I wanted to spend the rest of my life with him.

We ended up getting pregnant with our son Justin. It wasn't anything planned, but a blessing for sure. Last year in May Adam and I got married. We have been together for 5 and half years.

Our wedding was beautiful. All of our family and friends were there. We had it outside on our property. Our wedding was perfect and everything was just right. I could not have imagined anything more perfect.

After I had Justin, I went into congestive heart failure. Where it is rare that would likely happen again, my doctor's recommended us on not getting pregnant again.

When Justin turned 2, Adam and I started talking about adoption. After a year of talking, praying, and looking at our options we decided that adoption was the best way for us to grow our family. January of 2012 we started researching the adoption process.

We are a normal family, that loves to laugh and have fun with everything we do. Adam and I try to go on a date at least once a month. But we also try and do little things together such as going to the store and cooking together. There are things in our life that has not gone our way, but we always try to stay positive and pray, while we try and talk things out. We love each other very much and that will never change.

Adam and I have 1 child, Justin. Justin is a wonderful little boy. There are not many things I have found that Justin doesn't enjoy doing. He is so outgoing. He loves all sports. He loves to laugh and smile. He has been such a happy kid since he was born.

He is very social like his dad. He has a bunch of cousins that he loves, and really enjoys playing with.

We have a rather large extended family. Adam and I both talked about adoption with both sides of our family. Many family members had questions. We talked about them, and shared our concerns. We are opening our hearts to this, and our family is also.

We are very close to both sides of the family. We enjoy cook-outs, golf outings, vacations, and holiday traditions together. Holidays are very busy for us. We have many get togethers, and big dinners. On Halloween we trick-or-treat together. Every birthday is celebrated with a get together, and time enjoying our family. We have big dinners at Easter, Thanksgiving, birthdays, Christmas, and sometimes just to have a good time. We enjoy each and every minute of this time we have together.

Our family has a lot of love. They are so excited about another little one.

Adam's parents are divorced. His mother lives in the town next to us. She is remarried to a wonderful man. They enjoy seeing Justin as much as they can. Adam's dad lives right behind us, on our property. He is also remarried to a great woman. They are very active grandparents. Adam also has 3 sister's and 1 brother. 1 sister lives in front of us. Ashley's parents also live in the next town. They are extremely active grandparents. They are so wonderful and help us so much. Ashley has 3 other sisters, they all have children of their own. All of Ashley's sisters live about 10 minutes away. They are really close. Ashley has a twin whom she is extremeley close too. Ashley and Adam's family mean the world to them. Their is so much love between each of them.

the  
STORY  
doesn't end  
HERE

We live in a beautiful home on 5 acres in the country. The property we live on used to be a farm. It's beautiful. Adam's father owned it and still owns the rest of the property. We love living out here. It's not too far in the country, but not in town.

The house has 3 bedrooms, and a play room. We have 2 living rooms with a kitchen and a dining room along with 2 bathrooms.

We live in a small community with a great school system. We also belong to a wonderful church. Our community has great sports program. Justin is involved with some of those programs, and hopefully will be involved in more as he gets older. Adam and I both grew up in this community, it's a perfect community to raise a family. It is very kid-friendly. We do live in a small town, but it's a wonderful small town. We are blessed to raise our family here.

# OUR FUTURE

Our future plans are to enjoy life, family and friends. We are looking forward to adopting and watching our family grow. We have so much love and room in our hearts and our home. We try and teach our kids about life and love the moment they are born.

We are blessed to be apart of an amazing community. Ashley owns a bridal shop in her community. She owns it with her mother and twin. Since she owns the store, she has the option of taking her child to work instead of daycare. Adam has a great job as an operating foreman. As a couple we feel we are very lucky for our community. They have showed so much support and love for our choice to adopt.

We have a wonderful school system for children. After high school we would never force our children to attend college. We hope they show a desire to attend college, but if they do not, we will support them in whatever they will choose to do. We are committed to helping them explore every option they choose, whether it is for higher education, vocational training, or preparing in any other ways to develop.

We have always wanted a bigger family. We hope we will get our chance soon. We know having a family is such a blessing. We love our child with all of our hearts.

We know it is very important to spend quality time with him as a family and one on one with each other. We enjoy and cherish those moments together. We like to make the most of them. We are a family that loves to laugh, love, and learn together. We do not want to miss out on anything. We take lots of pictures. We take pictures of our big days, lazy days, get togethers, holidays, and outings. We never want to forget a day of our lives together.

We hope you consider us as a possible adoptive parent for your child. Let us assure you that we are a family rich in love, laughter, and joy. Your child will never feel lost or alone. We will love and care for this little one as one of our own, and will work hard to be sure that he/she reaches all of the goals and dreams they have for their lives. We will always listen, give hugs, and support as a happy family cheering them on through life's joys and successes.

With Love,  
Adam & Ashley
